ANOTHER WONDERFUL CURE BY CUTICURA

"I had an eruption appear on my chest and body and extend upwards and downwards, so that my neck and face were all broken out, also my arms and the lower limbs as far is the knees I at first thought it was prickly heat But soon scales or crusts formed where the breaking out was Instead of going to a physician, I purchused a complete treatment of the Cuticuta Remedies, in which I had great futh, and all was satisfactor. A year or two later the cruption appeared again, only a little lower, but before it had time to spread I procured another supply of the Cutia Remedies, and continued their use until the cure was complete. It is now five years since the last attack, and have not seen any signs of a return I have taken about three bottles of the Cuticura Resolvent, and do not know how much of the Soap or Omtment, as I always keep them with me, probably one half dozen of each

"I decid d to give the Cuticura Remedies a trial after I had seen the results f their treatment of eczema on an infant belonging to one of our neighbors The parent took the child to the nearest physician, but his treatment did no good So they procured the Cuticura Remedies and cured her with them When they began using Cuticura Remedies her face was terribly disfigured with sores, but she was entirely cured, for I saw the same child at the age of five years, and her mother told me the cezema had never broken out since I have more faith in Cuticura Remedies for skin diseases than anything I know of I am, re pectfully yours, Lmma E Wilson, Liscomb Iowa, Oct 1, 1900"

From among the "narmonizers," of whom County Chairman Reddick seems to be leader, there came the story, too, that Pease, Reddick, Camp-bell, Busse, Henberg and others intend to insist that Governor Dencen shall not be allowed extra influence or power in the councils of the party Just because he is governor. Some of these men have said that they would lusist that Governor Deneen should be treated as though he still were only the leader in the town of Lake, and that the fact of his being governor should not be considered as giving him pres-

A reversal of form in those wards might change conditions in the convention. Lorimer, for example, could not agree to anything that would bind the anti-Deneen men from the Second, Sixth or Thirteenth wards, when it was not known whether they would be in the convention. Neither could Deneen pretend to deliver his friends from those wards when he could not tell whether they would have the delegates.
